Andrew Saidy
Vice President of Global Talent, Ubisoft

"If employees aren’t learning, they aren’t refining their skills or innovating. They and the organization are effectively moving backwards.”

"Learning and development (L&D) uses new influence to elevate people and their skills for business impact."

Learning is a cross-functional effort
L&D’s partnerships across HR and their companies keep getting stronger:

67% of L&D pros say their role became more cross-functional in the past year.
Creating an engaged and resilient workforce
Aligning skill building with career growth helps engage employees — and unlock their potential

L&D helps create people-centric organizations

80%
- of organizations want to build a more people-centric culture.

79%
- of L&D departments are helping build a more people-centric culture.

Employees’ number one motivation to learn is “progress toward career goals.”

Learning helps retain your best employees

90%
- of organizations are concerned about employee retention.

Providing learning opportunities has as much impact on employee retention as providing flexible work arrangements.

Skill building holds the key to success

86%
- 86% of L&D pros agree that proactively building employee skills will help navigate the evolving future of work.

As organizations seek ways to navigate shifting priorities, rising employee expectations, and economic uncertainty, learning will always help to build the skills and develop the people for a stronger future.

Explore the full report for deeper insights, data, methodology and advice from global learning leaders.

“Forward-thinking organizations need to create environments that embrace and unlock the potential of the whole employee.”

Linda Jingfang Cai
Global Head of Learning and Talent Development, LinkedIn
Top priorities to help French L&D lead the way in 2023

L&D pros need to make time for their own skill building — it’s like putting on an oxygen mask before helping others.

Tip: Prioritise your own learning
Top three fastest growing skills for L&D in France*

- Easily Adaptable
- Process Improvement
- Evolution

Tip: Improve your data literacy
The top three ways L&D pros are measuring success include vanity metrics, based on satisfaction with programs.

- Employee satisfaction – measured via survey
- Number of employees taking courses/trainings
- Employee satisfaction – informal/qualitative feedback

Business metrics fall to the middle or bottom of the list – including ‘improved performance reviews’, ‘number of new skills learned per learner’ and ‘Team/organization/business metrics (deals closed, customer satisfaction) before and after training’.

*Excluding core L&D and HR skills, such as training and development, and instructional design.
